Always make sure the carpet pole is firmly seated against the heel of the forks & the safety chain is attached to the forklift carriage.

Do not ride on or sit on the carpet pole.

Do not use the carpet pole to push objects. Only use the product to transport a roll of carpet.

Only use this product when traveling on firm, level, even ground.

Do not leave elevated rolls of carpet unattended. Always lower the load before leaving the forklift.

Carpet roll must not be longer than the pole. The carpet roll must not hang over the end of the pole. ***Never lift with the tip.***

Never use on reach style forklifts.

Never hang anything from the forks or carpet pole; a forklift is not a crane.
