

# INSTASHIELD™

## installation instructions

PATENT PENDING

standard baseball cap

Holding groove

### 5 Lock shield in place pushing top of shield under bill forward

Hold plastic arch on top of bill while pushing top of plastic shield below bill forward. This will tension lock the shield to your hat. Adjust final position as required.

set the shield about half way back on the bill of the cap.

### 1 Remove Packaging

remove plastic strip if present inside holding groove

### 2 Fold sides back

Fold sides back 90 degrees along score lines (fold only along dotted line area) gently using your hands.

### 3 Insert bill of cap into groove

Angle shield as shown and Adjust curve of bill as you align and push it through the holding groove. Push shield up to dotted line shown on bill of cap.

### 4 Fold support wings under bill

Move shield to vertical position, then fold support wings under bill to initially position the shield.
